

5th KardioWIND meeting Schloss Haigerloch

Haigerloch, 17.07.-18.07.2015

Also this year, young clinicians and scientists met for the fifth time at Schloss Haigerloch for the annual KardioWIND meeting. In a refreshing atmosphere at the conference hotel, new and hot topics in clinical, basic and translational research were presented. The meeting offers an open atmosphere with various occasions to learn to know other researchers, discuss the presented results and initiate cooperations and scientific networks in the cardiovascular research field.

Speakers from Hannover, Bonn, Tübingen, Göttingen, Frankfurt and Freiburg talked about topics from bench to bedside.

„Epigenetic and metabolic regulation of angiogenesis“

F. Jansen, Bonn

H. Nording, Tübingen

„Translational approaches for cardiovascular diseases“

J. Patzelt, Tübingen

D. Rath, Tübingen

K. Toischer, Göttingen

„Vascular remodelling“

E. Chavakis, Frankfurt

J. Dutzmann, Hannover

K. Knoepp, Hannover

D. Heinzmann, Tübingen

„Cell-cell interactions of the vascular wall“

J. Jehle, Bonn

P. Pfeiffer, Bonn

M. Olbrich, Tübingen

„Innate Immunity and cardiovascular disease“

D. Duerschmied, Freiburg

I. Hilgendorf, Freiburg

M. Sauter, Tübingen
